

SUSTAINABLE DEVELOPMENT FRAME WORK

Sustainable mining operations are carried out at RAMANADURGA IRON ORE MINE OF M/s.SRI KUMARASWAMY MINERAL EXPORTS PVT LTD. We are committed to acquiring essential certifications and implementing ISO standards, we seek to have a measured impact on the finite natural resources.

SUSTAINABLE DEVELOPMENT FRAME WORK INVOLVES:

- ✓ Environment Management Plan (EMP).
- ✓ Scientific Mining.
- ✓ CSR Activities.
- ✓ Welfare amenities

❖ ENVIRONMENT MANAGEMENT PLAN:

Our mining lease comprises 59.36 ha forestland. We have developed and nurtured tree plantations over Safety zone, avenue plantation and dump of valuable mining areas and we started own Nursery to support regular supply of saplings. The mining lease lies in a hilly terrain. To prevent soil erosion, contain dumps from being washed away by rains and to prevent the close-by lakes from being silted, we have been carrying out regular environmental protection works. This includes constructing check dams, gully plugs, drains, toe walls & silt settling tanks. We have initiated steps to re-charge ground water through rainwater harvesting methods. The water stored in the harvesting pits is being used for applications such as dust suppression and greenbelt development. We have adopted 100% Green Energy from Solar System at mine level.

❖ SCIENTIFIC MINING:

We have always laid emphasis on Scientific Mining, Safety, Afforestation and Environment protection. For this, we have also won several awards at the zone and State level. We respect to the various statutory and rules of mining, has held us in good stead.

❖ CSR ACTIVITIES:

Various corporate social responsibility activities are carried out in and around the ML area. Support to Education, Health, Public Transport, Hygiene and Sanitation, Cultural, Social-economic works And Drinking Water supply to nearby villages.

❖ WELFARE AMENITIES:

- Bonus
- Free Canteen facility
- Health insurance
